

**IN THE SPECIFICATION:**

*Please amend the specification as follows:*

*Paragraph on page 2, beginning at line 24:*

According to the invention, the above-mentioned object is attained by a first insert pocket located closest to the front end, together with the appurtenant cutting insert in a first flute, having another length than the other inset pockets and the cutting inserts, respectively, in the same flute in order to axially displace said overlapping planes in relation to the overlapping planes between the cutting inserts in a row of cutting inserts in a second, nearby flute ~~the features that are defined in the characterizing portion of claim 1. Preferred embodiments of the invention are further defined in the dependent claims 2-5.~~
